

# CUBE CONSULTING

---

## Mark Zammit

Director, Principal Consultant

Mark has worked in the mining and exploration industry for more than 25 years. His career as a geologist has encompassed a comprehensive range of activities including both exploration and mine geology at a number of gold and base metal deposits throughout Australia and overseas.

Mark is highly experienced in a range of mineralisation styles and extraction techniques, both in underground and open pit mining environments. He is an expert user of Surpac and is highly skilled at resource modelling and interpretation. Mark's strong interpersonal skills, coupled with expert technical knowledge assists with communication and ensures that knowledge transfer to other technical personnel is a straightforward process.
