

# CUBE CONSULTING

---

## Lindsay Farley

Principal Resource Geologist

Lindsay is a geologist with over 20 years' experience in resource estimation, consulting, mining (both underground and open pit) and the development of geostatistical software. He has been involved on projects in many countries including, Australia, Canada, Russia, Brazil, Vietnam, Turkey and several countries throughout Africa, having most recently worked in Tanzania for four years. Work completed independently or involved in as part of a team includes resource estimates, feasibility studies, pre-feasibility studies, training courses, review of mineral resource estimates, review of databases and site visits.

Lindsay specialises in resource estimation and geostatistics for precious and base metals in many geological settings. He is highly experienced in mentoring, having overseen the development of resource departments for his employer companies and having presented courses in resource estimation and geostatistics.

He is an expert user of Datamine and Supervisor geostatistical software.

## Expertise
