

CUBE CONSULTING

Aaron Green

Managing Director

Aaron is a professional geologist and proven manager with over 30 years' experience in the mining industry. Whilst primarily based in Western Australia, his consulting work has taken him to many countries and regions across the globe.

Aaron's experience covers roles with small to large mining companies, spanning early-stage, grassroots to brownfields exploration, near mine and resource definition, open pit and underground mining and an extensive consulting career as a resource geologist and manager of more than 20 years. Commodity experience includes gold, silver, base metals (copper, zinc, lead) sulphide nickel, industrial minerals, graphite, lithium and industrial minerals.

Core competencies include project evaluation, resource modelling, due diligence studies, business development, project management, staff management and mentoring.
