

CUBE CONSULTING

Hannah Kosovich

Senior Resource Geologist

Hannah is a geologist with over 25 years of experience in the Western Australian resources sector. She holds a Bachelor of Science in Geology from the University of Western Australia and has held a range of operational roles across open pit gold, manganese, and iron ore projects throughout the region.

Hannah's career has evolved into resource estimation where she has gained experience in both open pit and underground gold deposits, as well as open pit iron ore. Hannah's core competencies geological modelling, data analysis, resource estimation and technical reporting.

Hannah possesses in-depth commodity experience in narrow vein gold and hematite-goethite iron ore deposits and is recognised as a Competent Person for both Gold and Iron Ore under relevant reporting codes.
